Ohio EPA Schedules Public Meeting to Discuss a Plan for a Portion of the Diamond Shamrock Site

A plan for a parcel of land located at the Diamond Shamrock Painesville Works Site will be the focus of an Ohio EPA public meeting set for Thursday, Aug. 27, 2015. The meeting will begin at 6 p.m. at the Painesville Township Hall, 55 Nye Road, Painesville.

The information session and public hearing will provide citizens with an opportunity to ask questions and submit comments concerning Ohio EPA's preferred plan for operable unit 5 (OU5). This is one of 24 operable units or parcels of property that make up the 1,100-acre Diamond Shamrock Site. OU5 is currently owned by Elm Street Truck Depot, LLC.

OU5 (2.9-acres) is located in the southern portion of the Diamond Shamrock property. The proposed remedial plan would maintain the existing environmental covenant which restricts OU5 to commercial and industrial use only. The environmental covenant also prohibits the use of ground water and requires annual reporting.

Comments may be presented at the public hearing or submitted in writing to: Ohio EPA Northeast District Office, Attn: Teri Heer, 2110 East Aurora Road, Twinsburg, OH 44087 or teri.heer@epa.ohio.gov. The public comment period ends Sept. 4, 2015.

The preferred plans are available for review at the Morley Library in Painesville, the Fairport Harbor Library in Fairport Harbor and at Ohio EPA's Northeast District Office by first calling 330-963-1200. Electronic copies are available online at <http://epa.ohio.gov/derr/EnvironmentalResponseandRevitalization.aspx>.
